**RESPONSE TO RESTRICTION REQUIREMENT**

Sir:

Responsive to the restriction requirement mailed June 30, 2008, applicants elect to prosecute the claims of Group I, claims 12-18, with traverse.

The Examiner is of the opinion that the application lacks unity and comprises two inventions, a method and a product, although through the method specifically the production of this product is claimed. Since the application has been nationalized from a PCT application no objection as to lack of unity was raised in the PCT phase, the Examiner is respectfully requested to reconsider the criteria of "unity of invention" and withdrawn the restriction.
